COMMERCIAL POOL
CLEANERS

Your Source for Pure Pool Pleasure

 **BWT**
BEST WATER TECHNOLOGY

Always an
amazing sight!

Robotic pool cleaners

HEAVY-DUTY CLEANING FOR THE HIGHEST
WATER STANDARDS

BWT robotic pool cleaners always put on a show, nimbly climbing any walls, even the steepest slopes, to thoroughly clean your pool for optimum water quality.

Unequalled suction power

BWT robotic pool cleaners feature the most powerful suction of any cleaner on the market. Suction can be increased up to twofold through precise adjustment of the intake valves.

The closer they are to the surface being vacuumed, the more powerful the suction.

Suction can be adjusted to efficiently capture the type of debris to be picked up. Thus, close to a beach for example, the intake valves can be set down low to effortlessly pick up every grain of sand.

Précision inside !

Among the finest filtration performances on the market

The **4D filter** consists of elastic 3D microfibre loops, which, coupled with the vibrating motion, maximises water throughput.

The vibration improves the suction power and prevents clogging of the filters.

The **4D filter** traps even the tiniest impurities. From leaves to grains of sand, nothing escapes.

Finesse inside !

Ideal for your pool

BWT robotic pool cleaners are perfect for every pool of any shape up to 15 m long. With their high density foam brushes, BWT robotic pool cleaners adapt to every pool finish.

Intuitive, easy cleaning

BWT robotic pool cleaners are intuitive and easy to use.

With the touch of a button, the cleaner gets to work all by itself. An indicator light located on the transformer alerts you when the filter is full and needs to be cleaned. Freedom is yours!

Simplicity inside !

Safe and reliable

The safety of users is of utmost importance.

This is why BWT robotic pool cleaners run off a low voltage transformer and are fitted with an automatic stop, as required by European standards.

The devices are also equipped with in water and out of water safety mechanisms.

Fast cleaning

BWT robotic pool cleaners move quickly and clean fast. They feature the intelligent and exclusive **Aqua Smart Navigation system**.

Comprised of a gyroscope and an algorithm, the navigation system scans and detects obstacles, and then computes the cleaning path.

The pool floor, walls and waterline are perfectly clean, **with a minimum number of passes**, and in record time.

Aqua Smart Navigation !

MAGNUM JUNIOR

The **Magnum Junior** robotic pool cleaner is designed to clean every centimetre of your pool.

Magnum Junior is the only cleaner that offers so much functionality at such an affordable price.

Any BWT POOL PRODUCTS professional customer can benefit from the loan of a community robot, for demonstration purposes, subject to acceptance of our general loan conditions, available on bwt-proshop.fr. These robots are available from our branches in Rennes and Marseille.

Pool size	For small commercial pools up to 20 m long, any shape and surface finish
Cleaning type	Floor and walls
Cleaning cycle duration	3, 4 or 5 hours
Filter type	4D hyperfine microfibre, 1 XL bag
Filter access	Easy access from below
Full filter indicator	Yes
Brush type	4 PVA brushes
Power supply	230V / 180W
Navigation system	Aqua Smart System
Platform	2 drive motors and a pump
Suction power	19 m ³ / h
Cable length	30 m
Anti-tangle system	Yes, hand operated
Compatible with an external timer	Yes
Remote control	Yes
Dimensions (L x W x H)	39 x 43.5 x 26 cm
Weight	9.46 Kg
Storage accessory	Caddy
Guarantee	3 years

MAGNUM

Equipped with two drive motors and a 19 m³/h filtration pump, **the Magnum** robotic pool cleaner provides thorough, fast cleaning of your pool.

Pool size	For mid-size commercial pools up to 25 m long, any shape and surface finish
Cleaning type	Floor and walls
Cleaning cycle duration	3, 4 or 5 hours
Filter type	4D hyperfine microfibre, 1 XL bag
Filter access	Easy access from below
Full filter indicator	Yes
Brush type	4 PVA brushes
Power supply	230V / 180W
Navigation system	Aqua Smart System
Platform	2 drive motors and a pump
Suction power	19 m ³ / h
Cable length	36 m
Anti-tangle system	Yes, hand operated
Compatible with an external timer	Yes
Remote control	Yes
Dimensions (L x W x H)	39 x 53 x 26 cm
Weight	11.2 Kg
Storage accessory	Caddy
Guarantee	3 years

ULTRAMAX JUNIOR

With its compact size, the **Ultramax Junior** robotic pool cleaner is particularly suited to **commercial and semi-olympic pools**. With its extra large, hyperfine microfibre bag, the pool is cleaned in no time.

Pool size	For semi-olympic pools up to 35 m long, any shape and pool surface finish
Cleaning type	Floor
Cleaning cycle duration	3, 4 and 6 hours
Filter type	4D hyperfine microfibre, 1 XL bag
Filter access	Easy access from below
Brush type	4 PVA brushes
Power supply	230V / 180W
Navigation system	Aqua Smart System
Platform	2 drive motors and 2 pumps
Suction power	38 m ³ / h
Cable length	36 m
Anti-tangle system	Yes, hand operated
Remote control	Yes
Dimensions (L x W x H)	40 x 54 x 31.5 cm
Storage accessory	Caddy
Guarantee	2 years

ULTRAMAX

The **Ultramax** model is particularly suited to **large and Olympic sized commercial pools**.

The AquaSmart Gyro System scanning formulae ensure that whatever the size, shape or surface finish, Ultramax will adapt to provide impeccable pool cleaning in the shortest amount of time. Ultramax guides you in the choice of the best cleaning programme taking the pool size and waterproofing finish, level of cleaning, timed start and numerous other parameters into consideration.

Pool size	For olympic pools up to 50 m long, any shape and pool surface finish
Cleaning type	Floor
Cleaning cycle duration	3, 4 and 6 hours
Filter type	4D hyperfine microfibre, 1 XL bag
Filter access	Easy access from below
Brush type	4 wide PVA brushes
Power supply	230V / 180W
Navigation system	Aqua Smart System
Platform	2 drive motors and 2 pumps
Suction power	38 m ³ / h
Cable length	45 m
Anti-tangle system	Yes, hand operated
Remote control	Yes
Dimensions (L x W x H)	40 x 81 x 29 cm
Storage accessory	Caddy
Guarantee	2 years

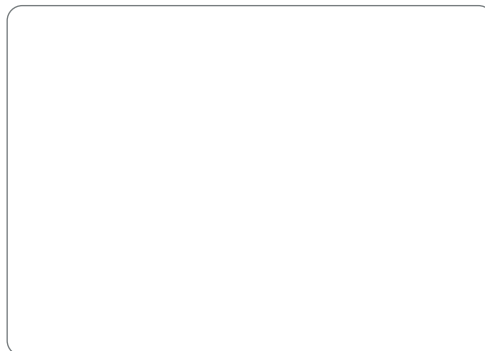

If you drink Diamond Mineralized Water, you have made a decision. You have chosen local water that has been enriched with valuable magnesium and silicate using the patented technology from BWT. You have decided against conventional bottled water, which has to be shipped many kilometers unnecessarily and pollutes the environment. You also decided that you give a child in Africa access to safe drinking water. You have chosen a better world. Sip by sip.
Thank you.

CHANGE THE WORLD - SIP BY SIP.
