

BWT F1SONIC PRO

The most awaited reveal of the year.
Smart. Fast. Light. Cordless.

BWT engineering at its finest.

Experience **cordless** freedom with our new generation, quick-charge, battery operated swimming pool cleaner : the BWT F1SONIC PRO.

Smart Mode: Adaptive trajectories, Powerful Suction

The new F1SONIC PRO swimming pool cleaner boasts adaptive trajectory technology and powerful suction power, thanks to **advanced algorithms and ultrasonic sensors**. Equipped with **state-of-the-art vacuum technology** capable of vacuuming up to **4,000 GPH (15 m³/h)**, it adapts its suction power according to the amount of debris in the pool, therefore optimising its battery charge.

Superior Filtration

The F1SONIC PRO's **double filtration system** including a high-tech filter and a fine filter, ensures impeccable water clarity and is designed to handle a wide range of debris. The basket features a **flap system** that prevents debris from escaping as the robot is lifted from the pool.

Cleaning the filters is a breeze: simply lift them out from the top of the robot and rinse off.

SmartPark Retrieval System

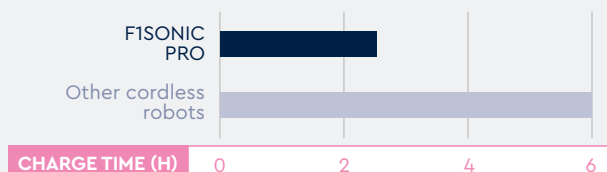

Benefit from hassle-free robot retrieval with the **SmartPark** function. Thanks to an ultrasonic sensor, the F1SONIC PRO parks itself by a swimming pool wall at the end of each cleaning cycle. With the included hook, you can easily lift the robot out of the water.

BWT ECO Product Lifetime Program

The F1SONIC PRO is designed for long-term use as part of the BWT ECO Product Lifetime Program. With its **replaceable battery**, you can easily extend the life of your robot, aligning with BWT's "For You and Planet Blue" initiative. This eco-friendly design reduces waste and ensures your pool stays clean while **supporting a sustainable future**.

Quick Charge Technology

The F1SONIC PRO is designed to get back to work faster than ever. Thanks to advanced **Quick Charge Technology**, the powerful F1SONIC PRO fully charges in just 3.5 hours —significantly faster than the competition. With one charge, you will get up to 4 hours of cleaning.

PRODUCT ADVANTAGES QUICK VIEW

- Cordless ! No messy cables !
- QuickCharge in 2,5 hours
- Up to 4hrs of cleaning with one charge
- Turbo mode
- ECO (Vacation) Mode
- Clear filter with double filtration

Included equipment :

- » Two 1 gallon (4L) nestable filters
- » 2 PVC brushes
- » Universal retrieval hook (pool poll not included)
- » Quick charger

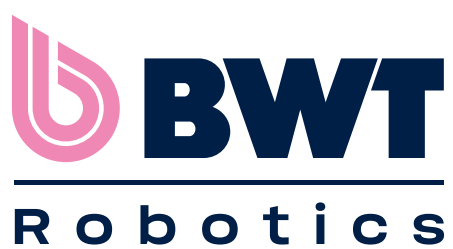

BWT Best Water Home

Spécifications techniques

Cleaning options	Full mode: Floor, walls and waterline + Floor-only mode
Battery capacity	9,600mAh Lithium-ion battery charges in 2.5 hours for up to 4 hours of cleaning
Dimensions (L x L x H in cm)	42 x 38 x 23
Swimming pool length	Up to 15m, for all shapes and finishes
Motors	3 (2 traction motors + 1 pump)
Robot weight	17 lbs
Cleaning cycle times	6 cleaning cycles: 3hrs, Max mode 30 minutes (turbo), 1.5 hours (floor only), 2 hours or 2.5 hours (floor, walls, waterline)
Gyroscope	Included + Ultrasonic SmartSensor
Smartphone app functionalities	Cycle selection, start-time programming, status notification, IOT update
Beach entry detection system	Included

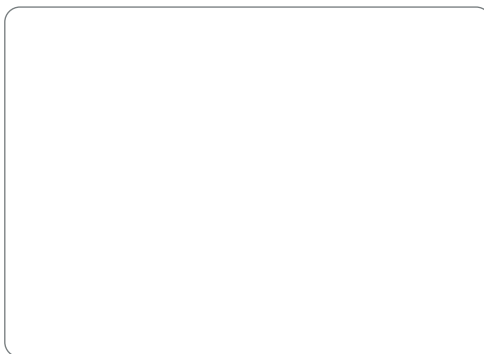

Your source for pure pool pleasure.
